HOW TO CUSTOMIZE YOUR TRIP

To plan a trip it is important to go through a series of steps that will help you to enjoy everything that the destination can offer you. Learn how to assemble your personalized package in a few steps.

Our packages include transfers, accommodation, tours, among other things. But if you want we can customize it your way.

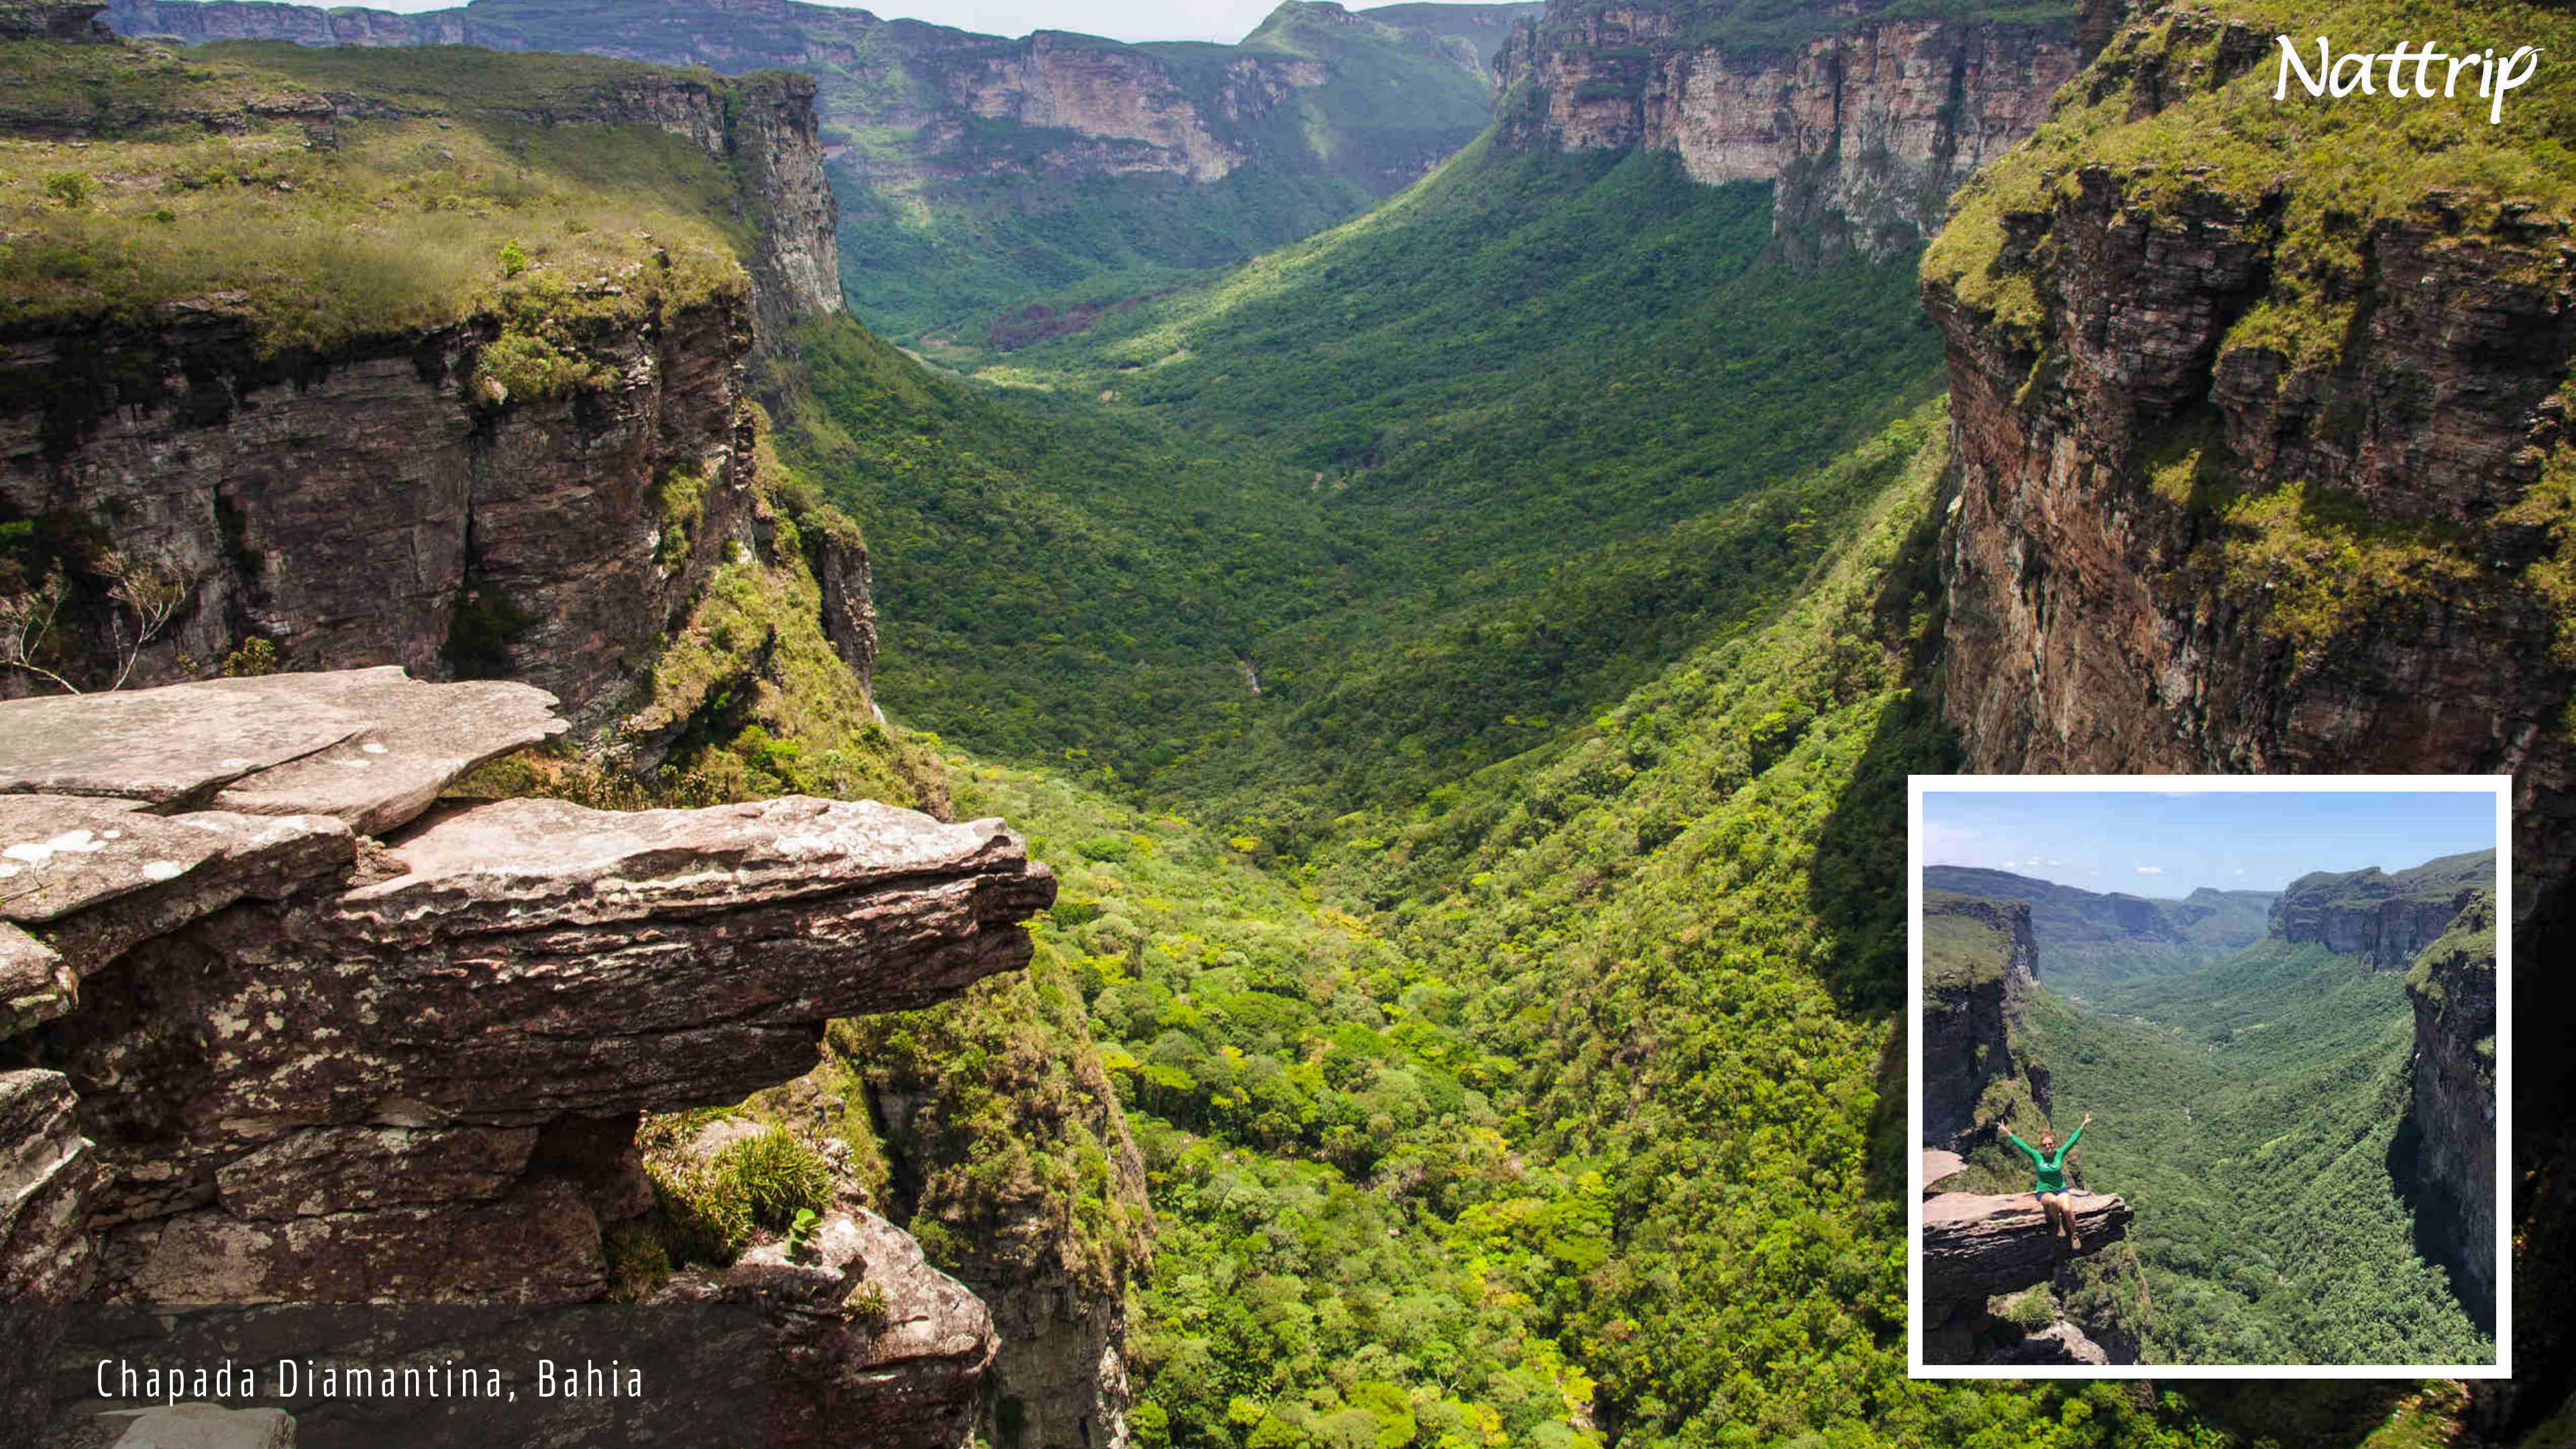

For our team to make a personalized package for you, we need to add at least two services, such as: **Accommodation and Tours; or Accommodation and Transport.**

SAFETY TRAVELING

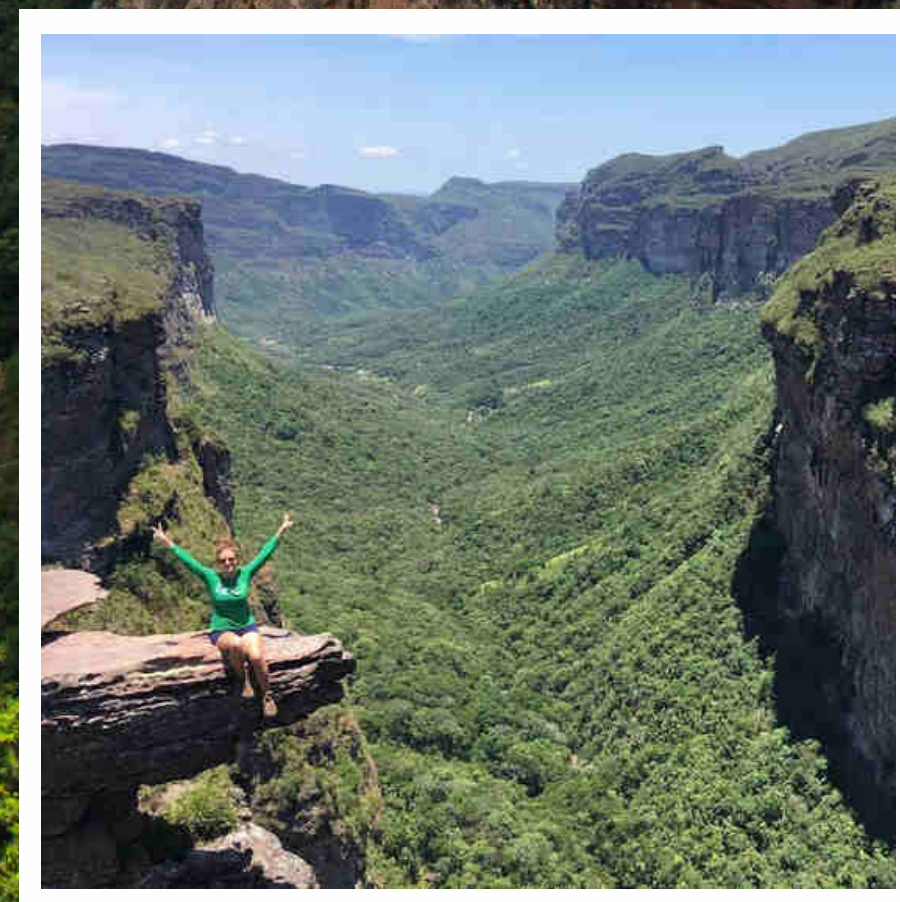

More than ever, we talk about hygiene and care in our personal lives. In this chain, Nattrip does its part by offering services and handpicking our suppliers, through research and personal verification.

Whether in accommodation or activities, our partners are in accordance with the recommendations of health organizations, health entities and our principles of environment sanitation, distance and personal hygiene.

STEP 1 - I WANT TO TRAVEL

Wanderlust

The first thing you need is to feel the desire to travel. Feel the call of nature, be in the mood to set foot in the world and get to know Brazil's nature destinations.

It is important to know whether you want to travel alone, with your friends, family or on a romantic trip.

Then, **decide your Destiny!** Which region, biome, city, place in particular, type of activity or even your style of travel - that's enough to start planning.

Pantanal, Mato Grosso do Sul

Lençóis Maranhenses during the dry season (November to April)

Lençóis Maranhenses during the flood period (June to August)

When?

The trip only begins to exist when it has a date. **Decide what your adventure period will be, it doesn't have to be exact.**

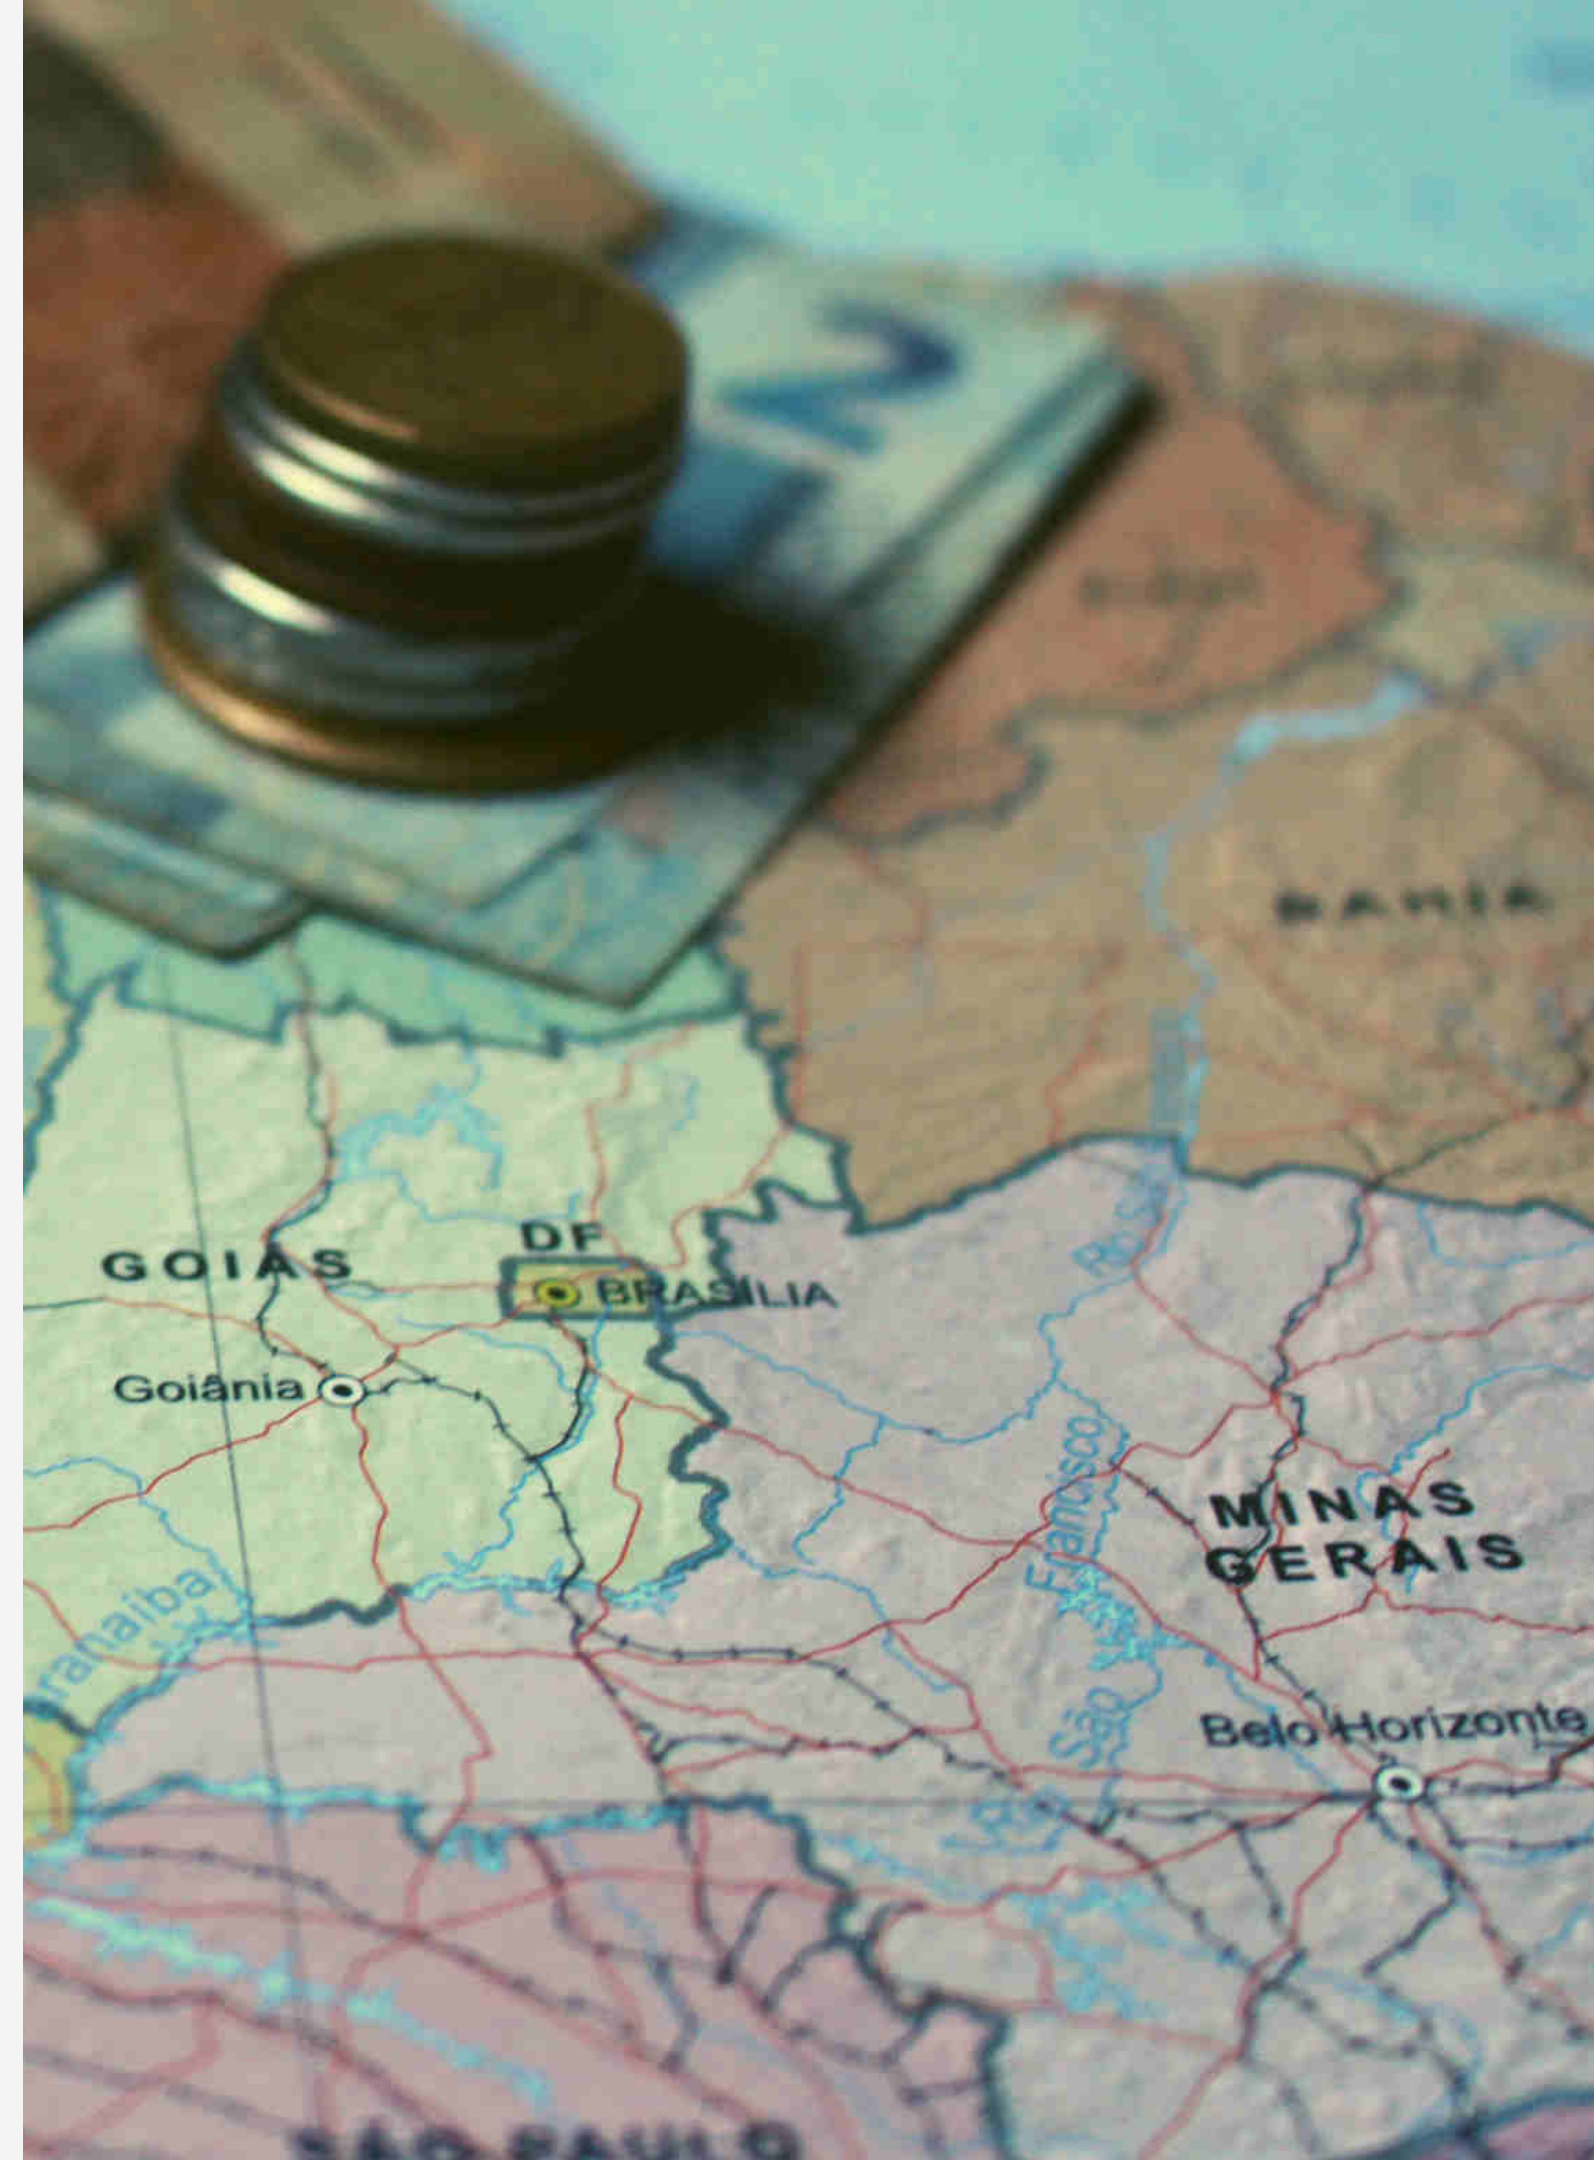

Remember that the period you choose can directly affect your experience, especially due to events, holidays (local and national), holidays and summer.

In addition, each place has its particularities, making it more suitable to visit during a certain period of the year. Don't know what it is? Talk to us, we will help you.

Budget

The **budget** it is essential to make everything happen, it will allow us to plan the trip and adapt it to your desire and need.

When thinking about your budget, take into account how much you will have available to invest, how many people will go, your type of accommodation, extra expenses, payment method and financial planning.

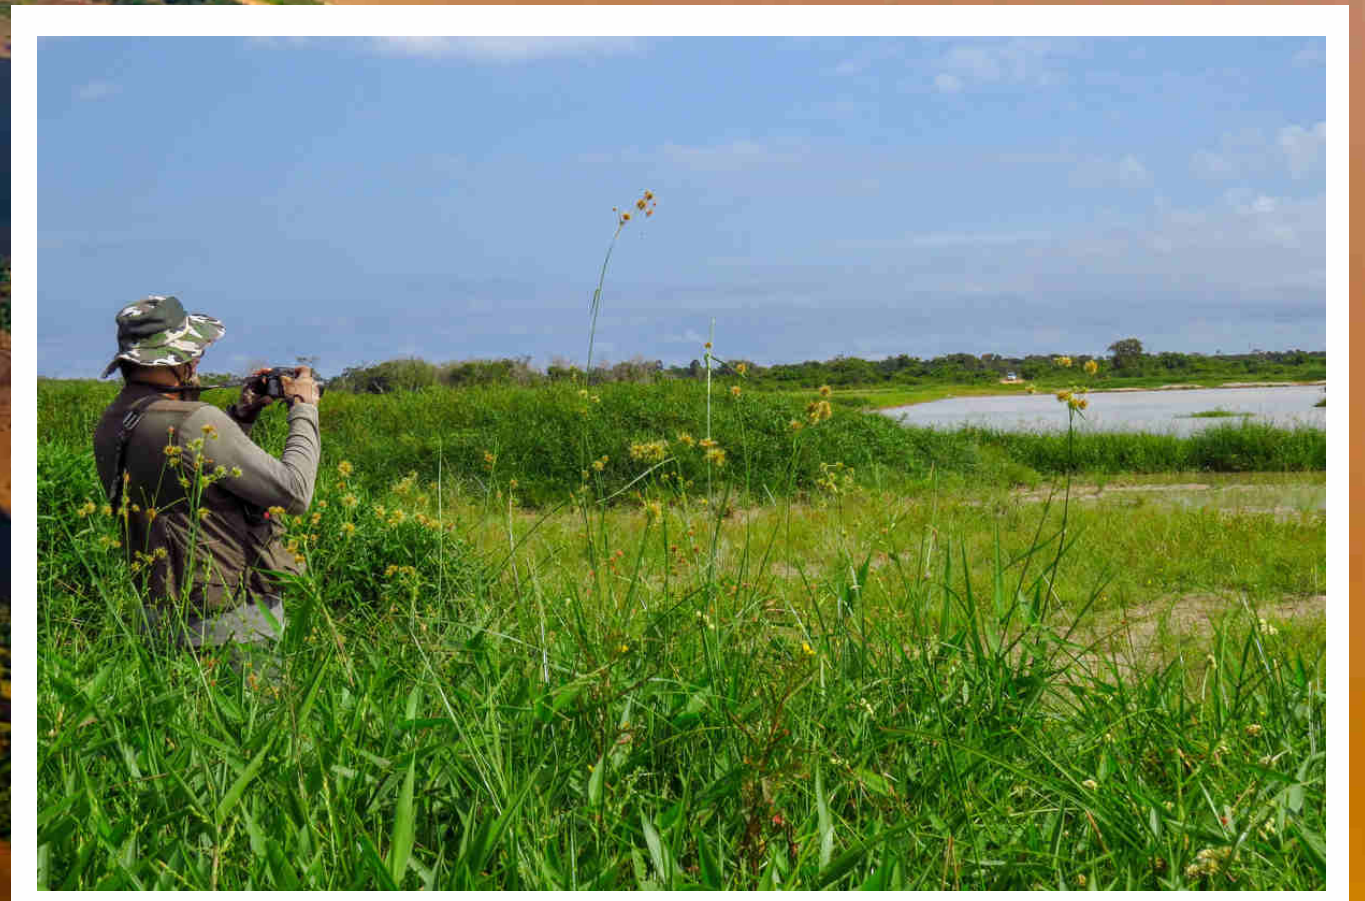

Decision

This is the most important area of your planning! Analyze all the previous items and make up your mind. Plan your dream trip now.

ACCOMMODATION

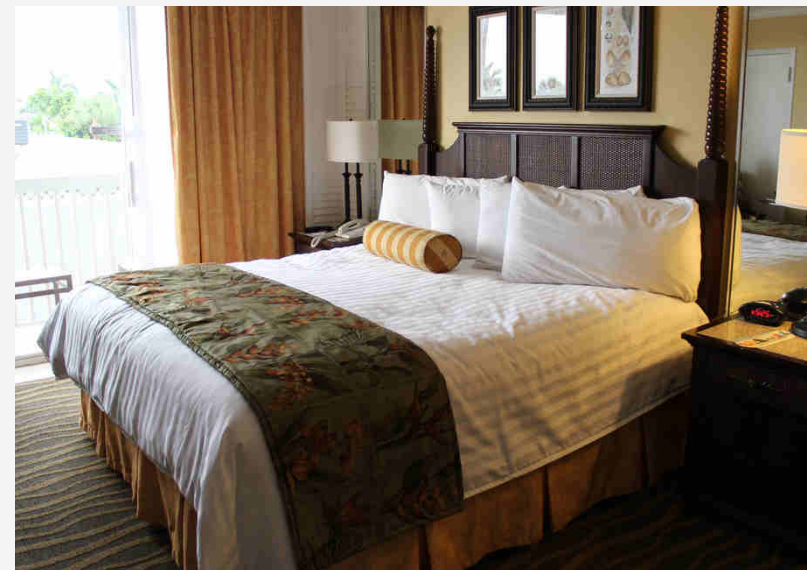

Choosing the best place to rest is essential to your experience.

When choosing your accommodation, take into account the price (or cost benefit) and comfort.

This choice will directly affect the value of your package. The main types of accommodation are:

Hostel: Hostels are the most cost-effective means of accommodation. Choosing this option will share the room with other travelers. Generally the hostels have relaxed environments, where you will be able to meet other people more easily. Ideal for those traveling alone or with a group of friends. Most offer breakfast included or optional.

Hotel: The best option for those who value comfort and privacy. In this option we work with standard hotels and inns, on average 03 stars. We also offer our customers the possibility of 4 to 5 star hotels, which can further increase their level of comfort and satisfaction. Hotels have breakfast included.

Pousadas / Bed & Breakfast: For those who value a more cozy experience, perhaps the inns are the best option. With a simple and intimate structure, the inns can guarantee comfort and quality of service, usually including a wholesome breakfast. The accommodations in Cama & Café are similar to the Pousadas, but with even simpler structures.

Resorts: If you want even more comfort, leisure and entertainment options, fantastic places and differentiated services, this option is for you. We work with Standard Resorts 4-5 Stars. Breakfast included, and may have full board.

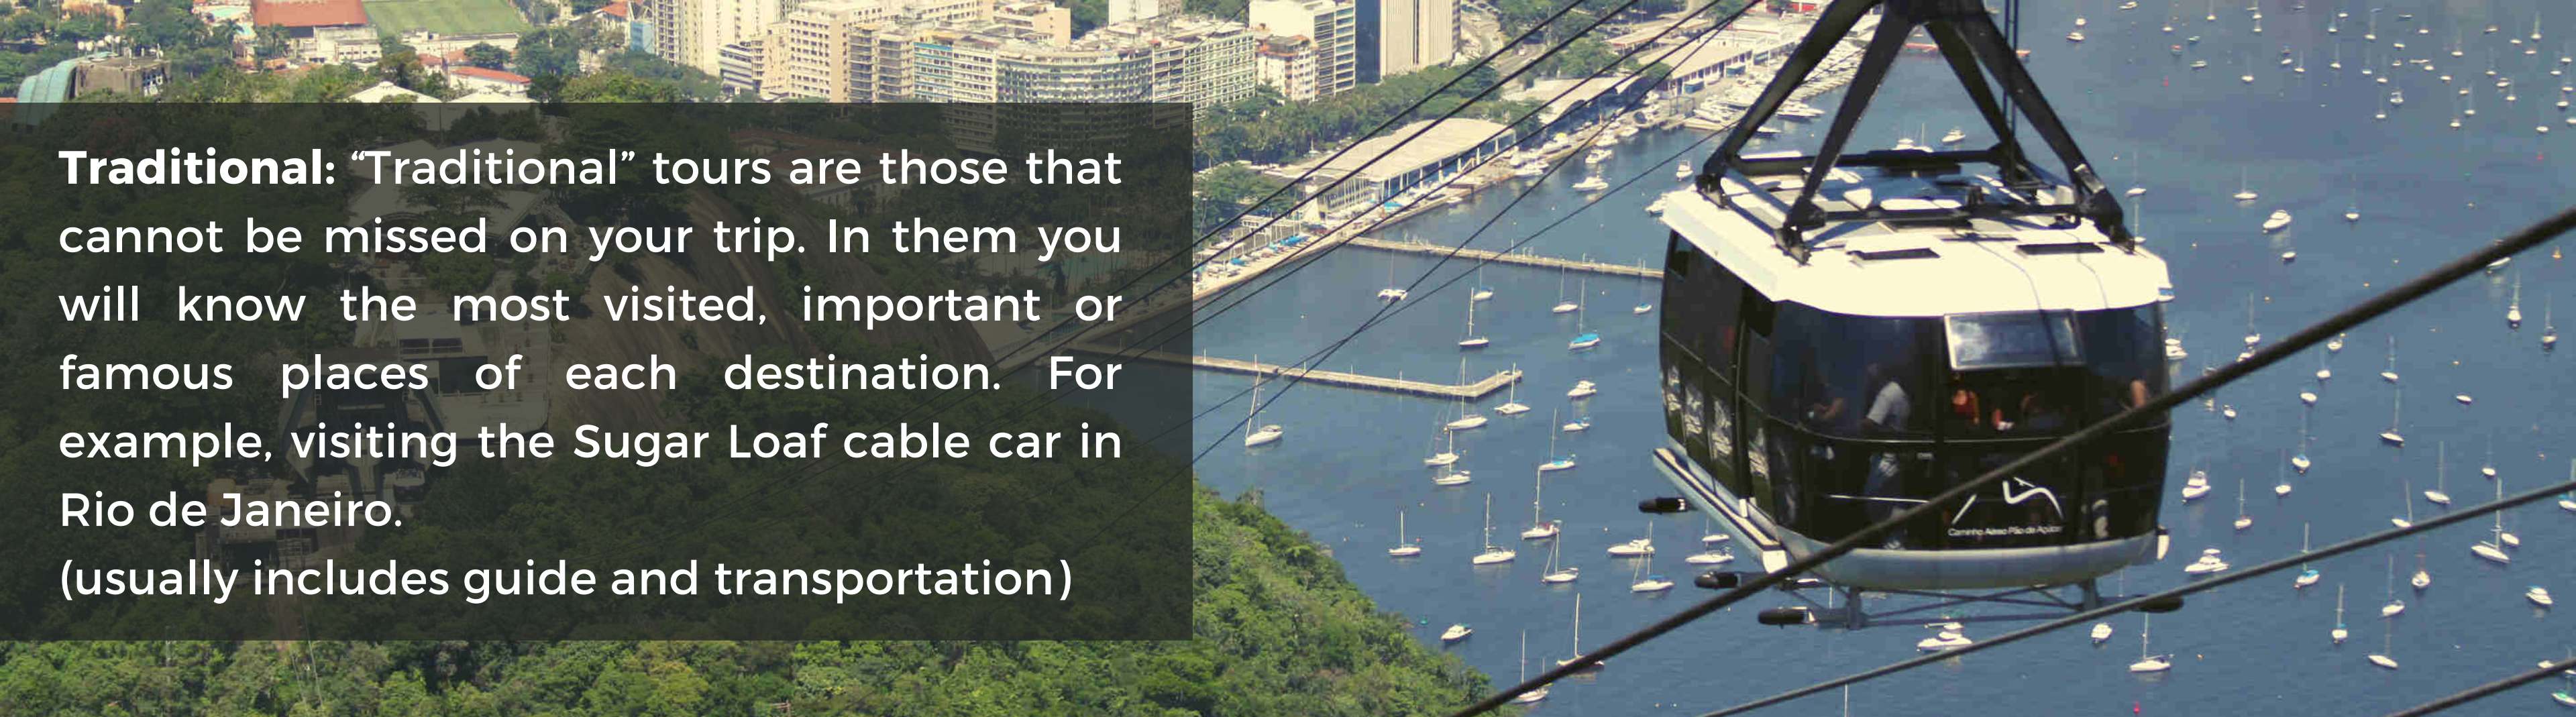

Morro do Pai Inácio, Chapada Diamantina

ACTIVITIES AND TOURS

Its activities and tours are key points to define the face of your package.

If you do not choose one of our ready-made itineraries, it will be exclusively up to you and the travel specialist to choose the best activities and tours for your profile.

Take a look at the types of activities and tours to follow.

Traditional: “Traditional” tours are those that cannot be missed on your trip. In them you will know the most visited, important or famous places of each destination. For example, visiting the Sugar Loaf cable car in Rio de Janeiro.
(usually includes guide and transportation)

Historical: If you really want to get to know the people and the local culture, you can choose tours that will provide a true experience in the destination. For example, exploring Pelourinho in Bahia.
(Usually includes guide and transportation)

Adventure and Ecotourism: For those who like sports, hiking, admiring and getting to know nature. Brazil is the number one country in the potential world of Ecotourism. Have you thought about conquering Mount Roraima? There are activities of all levels of difficulty, don't worry.

Free days: Maybe you just want to relax and enjoy the days of your trip as you please. In that case, we can help you with tips and suggestions of what to do in your chosen location. Who knows how to drink coconut water in Bombinhas, Santa Catarina.

Additional services and transfers: In some cases you may need something that is not included in our services. It will be a pleasure to help you within the possibilities.

If you prefer a private guide, or even transportation somewhere, we can arrange it. Not to mention the countless options of activities that destinations offer.

STEP 5 - FIRST PLAN

Now that you and our Travel Experts have defined all the characteristics of your trip, it's time for it to get out of the plan of ideas.

Using the information previously obtained, the specialist will make an itinerary with all the logistics of transport, accommodation, tours and meals. This will be the **first travel plan**.

The first plan consists of a detailed itinerary with all the information you need: details of the activities, what is and what is not included, in addition to the price adding up all these services.

After receiving the first plan, analyze whether it is within your expectations. It is important to make it clear that it is fully customizable.

If necessary, now is the time to change the means of accommodation, tours or add some other service.

When everything is perfect, we will send you the **final travel plan** and you will be ready for the last step.

STEP 6 - FINAL NEGOTIATIONS

When the itinerary is perfectly in accordance with your wishes and approved, we will proceed to the selection of the payment method. You can choose from the following options:

- ➔ **Paypal/Credit:** Choosing this payment method you will receive a payment link in your email or on your cell phone. By accessing the link, you will be able to pay for your trip. The Paypal platform offers installments, offering the flexibility to choose the amount of installments, between 2x and 12x. The plans are subject to risk and credit analysis by PayPal.
- ➔ **Bank Deposit / Bank Transfer:** Another payment method is deposit or bank transfer. We work with banks Santander and Bradesco! The data will be provided by your Travel Specialist.

PREPARING FOR THE TRIP

Now your trip is already a reality, so we need to prepare. Get connected with some tips that can help you in your travel preparation:

Checklist

Documents: Don't forget your documents. You will need them during the trip, when boarding your flight and on some tours. If you don't happen to have an identity card, you can use any official photo ID. If your trip includes a destination outside of Brazil, it is important that you also take your passport. Pay attention to the validity of your documents!

what to take: In addition to your documents, when packing your backpack for traveling, there are also some things that you can not forget to bring. Depending on what your itinerary will be, our travel experts will make the right recommendations for you, don't worry.

Suport: Throughout the assembly of your itinerary and payment we were together, it is not now that our relationship will change. If you have questions or need help, count on us.

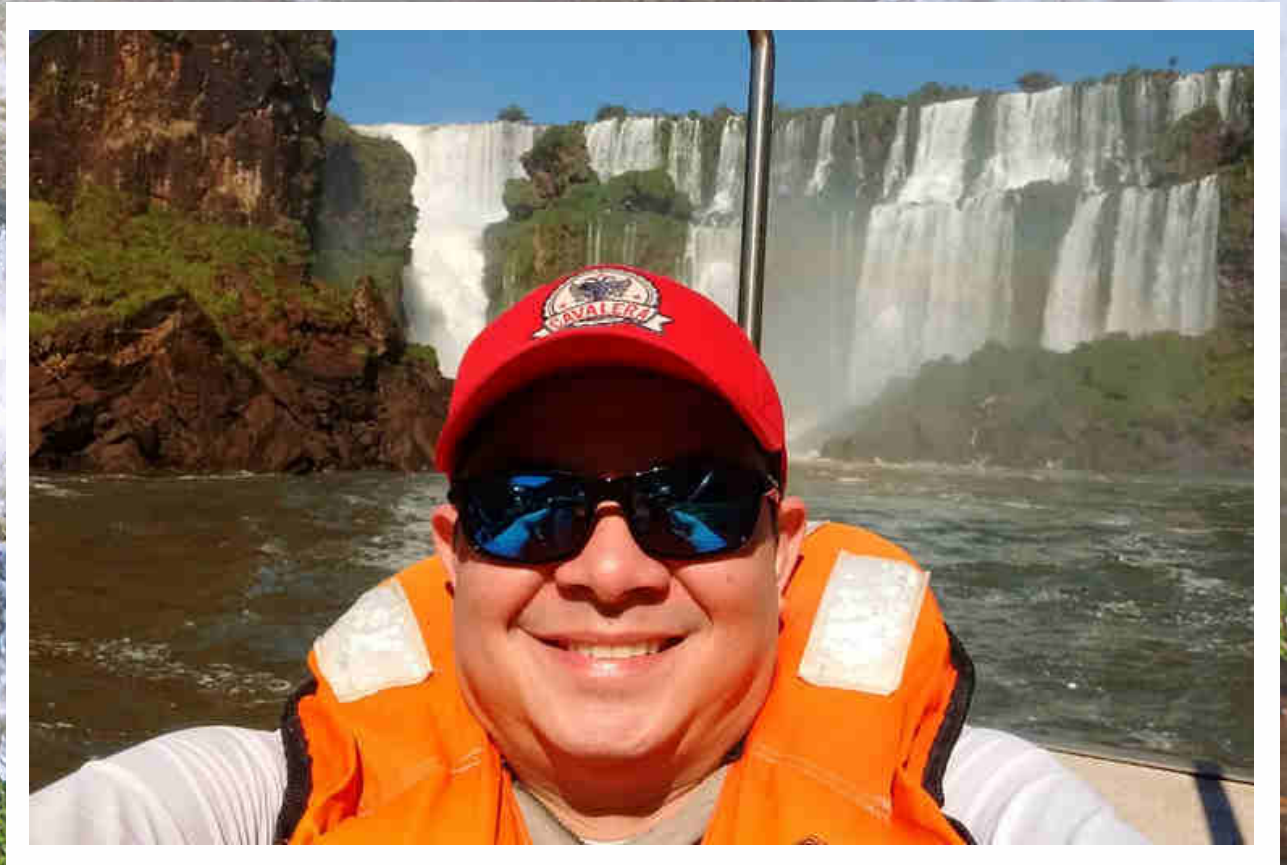

Extra Money: It is always good to take precautions, something can happen or maybe you will fall in love with some souvenir from the local store. For this it is always good to take an extra amount. In addition, you will need to have money available to use with things that are not included in your package.

personal hygiene: Do not forget to take the alcohol gel and mask.
